PROHIBITIONISTS NAME STANDARD BEARERS

ATLANTIC CITY, N. J., July 12.—The National Prohibition Convention concluded its labors here tonight with the nomination of the party standard bearers of four years ago—Eugene W. Chas. of Arizona, for president, and Aaron S. Watkins of Ohio for vice-president. In each case the nomination was made by acclamation after a single ballot had indicated the preference of the delegates.

Four candidates for president were placed in nomination against Chas. They were E. W. Emerson of California, Finley C. Hendrickson of Maryland, Aaron S. Watkins of Ohio, and Andrew J. Houston of Texas. Each in turn withdrew his name after the first ballot.

The leading candidates against Watkins for vice-president were Emerson of California and George E. Stockwell of New York. Chas. in addressing the convention, promised not to stand for a third nomination.

Because of a rush to adjourn, the plan to change the name of the party was not taken up for general discussion. A. J. Orem of Massachusetts in a brief speech promised to pledge more money to the campaign fund should the name be changed.

"I believe we could make the campaign doubly effective if we should adopt a new name," said Orem. "We would be greatly aided in carrying our banner to success if we should adopt the name 'progressive.'"

There were shouts of protest to this, as well as to the name "Conservative party," suggested by Rev. S. H. Taft of California.

ANAK RIVALS THE KLONDIKE

TACOMA, Wash., July 15.—The new placer district of anak, Alaska, is the Mecca toward which hundreds of Alaskans from the Iditarod, Fairbanks, Ruby and Nome districts are hurrying. Cables from Iditarod say that Marvel and other creek tributaries of anak river are marvelously rich in gold. anak has become famous as the only Alaska placer district that has not had a single knocker since the good prospects were first discovered.

J. M. Pickel, who brought news of Marvel creek's richness to Iditarod, is a brother of H. E. Pickel, vice president of the Carman Manufacturing Company here. Pickel has been prospecting in Alaska eight years, is reliable and will likely be one of the first new Alaska millionaires which anak will create. In a letter written two months ago Pickel foreshadowed the golden news now received by cable. He writes:

"Conditions are encouraging. Discovery creek, a hundred miles from the mouth of the anak, is the scene of much prospecting. Every hole put to bedrock pans well. I have located claims on two promising creeks, which I have named Pioneer and Pearl rivers.

"These are eleven miles below discovery diggings and are shallow. There is an abundance of water. Claims may be hydraulicked with inexpensive outfits. Marvel creek is conservatively estimated to have forty miles of pay dirt.

"Old-timers say this district excels all others in extent and surface values. This portion of Kuskokwim valley has never been prospected hitherto and travel is laborious, especially with bulging packs."

MONA LISA

CARTOONS HERE

Following the excitement of last year over the theft of the Mona Lisa painting from the Louvre, Paris is now extracting a whole lot of fun from the episode—altered thereto by a clever cartoonist.

William C. McGonagle, secretary of Benson, Smith & Co., Ltd., has received a set of cards, done in imitation sepia, satirizing the furore over the stolen work of art. One of them is a fair copy in miniature of the painting. The next is a cartoon of the subject, showing a grimace instead of the holy calm that made the original impressive. In number three of the series the men of madame is made still more ludicrous, and she is shown with thumb to nose and fingers extended in audacious salute. Underneath is an inscription in French, saying, "This is what Mona Lisa presents to her admirers."

When it is remembered that, day after day, crowds stood in front of the blank space on the wall from which the picture was abstracted, the pungency of the cartoonist's satire may be realized.

The following furnished work for the police department yesterday: John Sikes, assassin and battery; Charles Ma, investigation; Faruno, violating the auto ordinance; Kalawa, J. Kellihini, Kulkawaha, M. Welson, Pak Pong Yip, gambling; Andre Gligorevsky, investigation, and an unknown inebriate.

Chief Bottswain Metters, of the Honolulu naval station, is receiving the congratulations of his friends on being the proud father of a 9-pound son, born yesterday. No one can spring any race suicide talk around the naval station, the addition to the Metters family being the latest increase in the families of officers with the past two months.

Sixteen to twenty months will be required to complete the construction of the Fort street bulkhead wharf, and when it is finished the Matson Navigation Company is expected to take a large portion of the berthage space. This statement was made by Chairman Campbell at the meeting of the board of harbor commissioners yesterday afternoon. It was said that within the next two years the growth of the Matson company's business is expected to prove so great that it will require the largest wharf area in the local harbor.

ONCE MORE ELIXIR OF LIFE IS FOUND

PHILADELPHIA, July 13.—An "elixir of life" which in a thousand tests has been found to cure not only acute and chronic diseases, including neurasthenia, melancholia, locomotor ataxia, typhoid fever, scarlet fever, tuberculosis, pneumonia, influenza, epilepsy and rheumatism, but also to "cure" old age said to be a potent factor in building up the character of the patient, has been discovered by Dr. Frank R. Starkey of this city.

The formula of Dr. Starkey has met the approval of leading men of this city, and the New York Medical Journal has said of it editorially: "Its far-reaching meaning can hardly be overestimated."

Dr. Starkey makes no secret of the composition of the polyglandular extract that he has employed with such remarkable results. In 1908 he enlisted the assistance of fifty volunteer subjects. Fifteen minims of the newly devised polyglandular extract was administered daily to each subject by intra-muscular injection.

This was continued for two weeks," Dr. Starkey says. "The results were mental efficiency. They were able to stand more mental and physical exertion. They increased in weight, on an average, eight pounds during the two weeks, and declared they felt unusually well and strong. The blood pressure in all cases was increased."

"But would this prove true in disease?" was the next question to demand consideration.

"That question has been settled beyond all possibility of doubt in the four years that have elapsed from the time of the first experiments. It has been answered by a long list of persons who are now completely well, but who would at one time have been given up as hopeless cases."

Dr. Starkey is 30 years old, but appears younger. Two years ago he looked nearly 50 after many years of constant, unremitting research. The change was brought about by the injection of his own formula into himself.

RUSSIANS LEAVE WHEN FINN SINGS

STOCKHOLM, July 15.—The singing of the Finn choir at the choral festival last evening led to a sensational incident. The Grand Duke and Grand Duchess Cyrol of Russia, who were seated in the royal box, rose and left in protest when the Finns began singing a revolutionary hymn, which exhorted Finland to rise in her might and throw off the yoke of the conqueror.

The song began: "Think not that Finland's might is dead, Still can a foe's warm blood our land yet color red."

The song went on to bid the Finns: "Bodily, boldly, onward go. And tread the glorious path our days of freedom show."

The verses ended: "Our glorious shattered standard raise, Some fragments left where Finland's ancient colors blaze."

Several Russian officers left with the Grand Duke and Grand Duchess.
